Compensation

Vacations for YOU do not offer any monetary compensation/reimbursement. However, there are some exemptions at the Managers discretion.

If there are issues, concerns, or matters that arise that we can not resolve or rectify during the stay of the Guest, we will utilize the ➕ Compensation Calculator.
Think of the Compensation Calculator as our Virtual Gift Certificate Department.

It is a necessary best practice to follow the protocol as follows before offering compensation:

Managing the issue
- What is the concern?
- Are there multiple concerns

What are the steps to fix the concern?
- Troubleshooting
- Housekeeping WO needs to be placed
- Maintenance WO needs to be placed
- Vendor WO needs to be placed

Will the issue be resolved within 24-48 hours?
What are the options we have if the issue will not be resolved?
To compensate the Guest, have we expressed + communicated the necessary information?
- Will the issue be resolved at some point during the stay of the Guest?
    - Will the Guest be inconvenienced for a part of the stay or the entire stay?
    - Have we equipped our Guests with realistic expectations regarding the concerns being resolved...
        - General HK or Maintenance WO progressed to Vendor WO
            - Was this communicated with the Guest?

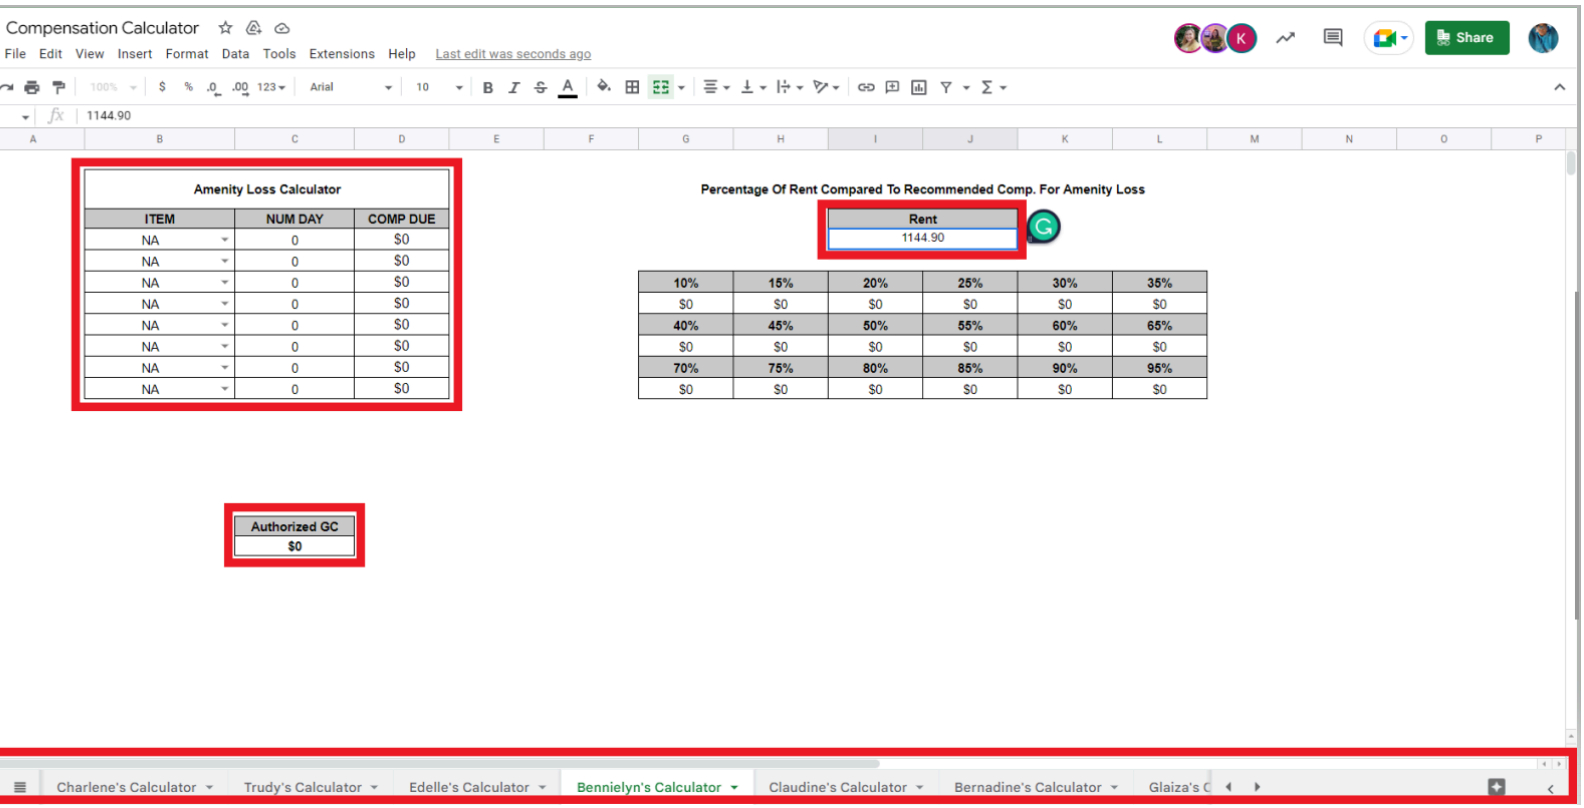
Have we expressed our policies to assist, and referenced the appropriate RA?
Rule of thumbs to assist when going into offering compensation...
- We do not offer monetary compensation or reimbursement.
- We offer Gift Certificates [GC] toward a future stay when we offer compensation.
- WE SHOULD WAIT UNTIL CLOSER TO THE CHECK-OUT DATE TO DISCUSS COMPENSATION!!
        - This will assist when MULTIPLE issues are needing attention OR when the route of Manager Escalation is happening.
    - Phrases to assist with offering GCs
        - "I spoke with our Gift Certificate Department, and they would like to offer you a Gift Certificate for $__, towards a future stay, that could be used at

one of our TN, GA, or FL properties. The Gift Certificate does not expire for 1 year, and you can book 18 months out."

- "We would like to offer you a Gift Certificate in the amount of $___ for a future stay that can be used at a TN, GA, or FL property. You will have 12 months to use or book a reservation before the gift certificate expires. You also can book 18 months out in advance. "

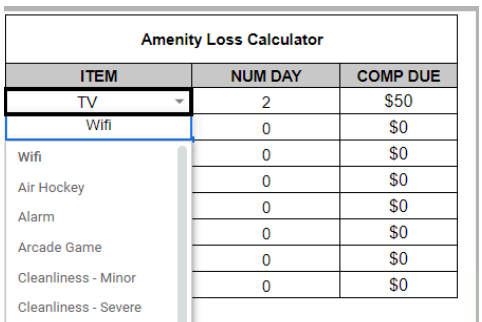
ALWAYS ALWAYS ALWAYS, Notate Reservations to include detailed information of the compensation offered. That way if another person speaks with the Guest they are aware. This will also assist if there is another issue and another Agent ends up offering compensation they will be aware.

How to Use Compensation Calculator:



Each Agent has a personal Calculator.
Utilizing Compensation Calculator

1. Take the Total Room Rate or Total Rent to input into the Rent
2. Use Amenity Loss Calculator
    1. Input each concerns/issues under [Use the dropdown box] ITEM



2. Input the # of days that the specific concern was an issue under NUM DAY + Press Enter
3. When offering the Authorized GC amount, remember that we CAN round up.

Example:

Guest staying 5 days at Boo's Boo's Den calls in advised the following:

1. RES NOTES: Their TV is not connecting to the Internet in the bedroom on the third floor. They wanted us to be worn out & broken rocking chairs. The guest attempted to troubleshoot by going through the inputs and resetting the router. WO was placed,
2. Maintenance WO requirements advised the TV needed the power cord replaced & the owner needed to pay the bill for Wi-Fi services. Everything is up and operable & guests went almost a full day with no TV or Wi-Fi & chairs will not be replaced until after their stay.
3. During the follow-up, the Guest was advised of the update. The guest mentioned they wanted compensation for going without TV + Wi-Fi for a whole day, and that they wanted to utilize the rocking chairs during the stay.
    a. Agent referenced information from RA: " I am sorry for the inconvenience this may have caused with the TV being inoperable. Our properties are outfitted with many amenities; just like home appliances, they sometimes malfunction or break down. While we can't offer a refund or any monetary compensation, I can reach out to our Gift Certificate Department to see what we can do. May I please place you on hold for a moment?"
        i. Use the compensation calculator.
            1. Input for the loss of a TV for 1 day & the same for Wi-Fi
            2. Input General Disrepair for the rocking chairs
                a. We can round down to $200 or offer $206 specifically.

Amenity Loss Calculator

ITEM	NUM DAY	COMP DUE
TV	1	$25
Wifi	1	$15
General Disrepair	5	$125
NA	0	$0
NA	0	$0
NA	0	$0
NA	0	$0
NA	0	$0

Percentage Of Rent Compared To Recommended Comp. For Amenity Loss

Rent
$1,145

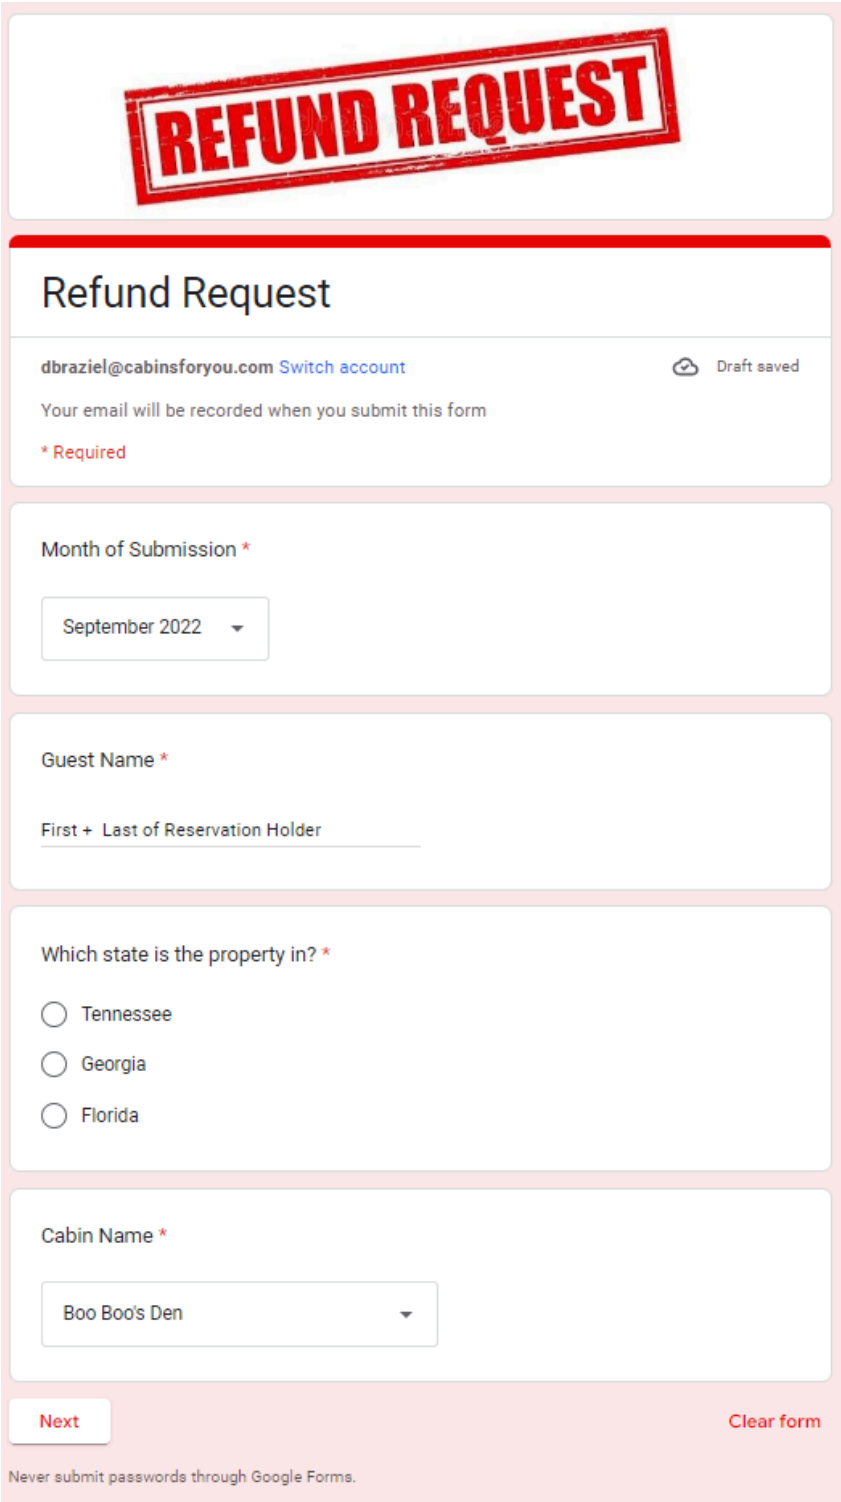
10%	15%	20%	25%	30%	35%
$114	$172	$229	$286	$343	$401
40%	**45%**	**50%**	**55%**	**60%**	**65%**
$458	$515	$572	$630	$687	$744
70%	**75%**	**80%**	**85%**	**90%**	**95%**
$801	$859	$916	$973	$1,030	$1,088

Consider Offering Percentage Rather Than Itemized Comp

[In some cases we will have to round up, instead of down]

b. Offering the Gift Certificate: "After reaching out to our Gift Certificate Department, we would like to offer you a $200 Gift Certificate towards a future stay at one of TN, GA, or FL properties. You will have 12 months to use or book a reservation before the gift certificates will expire. You also can book 18 months out in advance." If Guest ACCEPTS: submit Refund Request If Guest DECLINES: Notate reservation that Guest declined GC

Submitting Refund Request:



Guest **moves matrix procedure**

Call Center ONLY Matrix

If the following criteria has been met for the items listed below ONLY, then the Call Center leadership team has the authority to relocate guests without Owner Rep approval.

☐ Prior to Arrival

☐ There was advanced notice of a malfunction at the property that will not be resolved prior to the guest arrival and guests would like to move to another property.

☐ In-House

- ☐ A leadership team member has verified that the reported malfunction will not be resolved during the guest's stay and the guest is adamant that they be moved
- ☐ Pre-existing issue that is pending owner approval or pending a part to be resolved

*If we move a guest, the only way the guest will be moved back to the original property is if it is requested by the guest.

Issue	Notes
HVAC	No Heat or AC verified to be not working by vendor
Septic Backup	If raw sewage is backing up into the property (hazmat issue)
Water	If the water is not running in the entire property (outside of a well needing time to fill)
Pool / Swim Spa / Pool Room	If the pool or swim spa is shutdown/inoperable or if we have the pool room blocked so guests can't access it
Hot Tub	If the hot tub is inoperable and pending owner approval or pending part to be fixed or it cannot be accessed by guests due to deck being shut down/locked
Loss of Bedroom	If a bedroom in the property is blocked off and guests need it for sleeping arrangements
Large Appliance	If there is a large appliance that we do not have a loaner to take out, it is pending owner approval or pending replacement or part and the guests is adamant they need it

Repeat Complaints - if we receive 3 or more complaints for the same issue at a property, the issue will be escalated to Cassidy and Matthew for resolution. Details of the issue and what has been done/suggested, etc. need to be included along with refunds we have been issuing.

Guest Property Moves Procedure

The approval of **property moves** within vacation rental operations should be restricted to individuals in key leadership and operational roles who have the authority to make decisions regarding guest accommodations, property conditions, and operational procedures. Below are the roles typically involved in approving property moves, along with their responsibilities:

Roles Authorized to Approve Property Moves

Operations Manager/Director

- Approves moves based on housekeeping/ housekeeping managers, inspector/ inspection manager, or maintenance reports. These are confirmed by management when the issues cannot be resolved before the guest's arrival.

Owner Account Manager

- Approves moves based on owner-reported issues. These are confirmed by management when the issues cannot be resolved prior to the guest's arrival.

Guest Services Lead and Managers

- Approves moves based on the **approved guest moves matrix** (e.g., guest complaints or requests).

Maintenance Supervisor and Dispatch Manager

- Approves moves when critical issues (e.g., HVAC failure, water supply interruptions, safety concerns) cannot be resolved promptly.

Senior Leadership (President/COO)

- Approves major or complex relocations, particularly those involving significant financial implications.

Guest Relocation Approval and Coordination Process

Due to recent revenue concerns, it is essential for the **Operations Manager**, **Owner Account Manager**, **Call Center Manager, Dispatch Manager and Maintenance Manager** to collaborate and communicate effectively before deciding on guest relocations. This ensures that guests are well taken care of while being mindful of potential impacts on owner revenue.

Initial Identification of Issue

- Any team member (housekeeper/housekeeping manager, inspector/ inspections manager, guest services, maintenance, etc.) identifies a significant issue impacting the guest's comfort or the property's usability, they must report it immediately to their supervisor.

Collaborative Communication

- All communications should be directed through our dispatch notification email group. The **Operations Manager, Owner Account Manager, Call Center Manager, Dispatch Manager, and Maintenance Manager** will maintain open communication to ensure all relevant parties are informed about the issue. This includes assessing the severity of the problem, determining if it can be resolved quickly, and evaluating the potential financial impact of a relocation on both the guest experience and owner revenue.

Evaluate the Need for Relocation

- After assessing the situation, the team will determine if relocation is necessary based on the urgency of the issue. They will weigh the impact on the guest's satisfaction and the owner's revenue, ensuring any relocation is justified.

Approval for Relocation

- Once the team agrees that relocation is needed, the **Call Center Leads/Agent** will confirm that another suitable property is available and ensure that it is ready for the guest.

Guest Communication

- The **Call Center** will contact the guest, explain the situation, and offer the relocation option, making sure the guest feels valued and informed throughout the process. Comp range of $200 always makes sure to check the BAM rates as well.

Post-Move Follow-Up

- After the relocation, the **Call Center Lead/Agents** will follow up to ensure the guest is satisfied and that no further issues arise.

***Note: This process is different from the procedure for cabin shutdowns, which can only be approved by the President, COO, and Operations Director

---

Guest Move Requirements

In-House Guest Move:

1. **Ensure cleanliness** of the cabin you're moving them to.
2. If they've stayed 1 or more nights at the cabin that they are currently in, **DO NOT MOVE THE WHOLE RESERVATION!** Instead, you will have to **create a new reservation** for the new property and **modify** the original reservation to have a check out date of the date that you are moving the guests. Moving the whole reservation when the guests have stayed 1 or more nights in the property will cause the departure clean to disappear and the cabin will not be cleaned. That is why it is imperative to leave the reservation in place, adjust the check out date, and make a new reservation for the property they are moving to.
3. **Disable autopay** on the new reservation to avoid guest charges.
4. **Add notes** in both reservations.
5. **Send a last-minute change email**.

   Example Email:

   Good Afternoon,

   The guest was moved from Property A to Property B due to (List the Issue(s)).
   Housekeeping: Property A needs cleaning; Property B will check-out on (Date).
   Finance: The guest stayed X nights at Property A and will be staying X nights at Property B. Money will need to be moved and adjusted accordingly.

   Thank you,
   (Your Name)

6. If applicable, **block the original cabin**.

Cabin Move Before Check-in or if the guest has not stayed:

1. If the guests have not checked in yet or they have not stayed a single night in the cabin, you may **move the entire reservation** (except in situations where it is an AirBNB move) to the selected cabin.
   a. AirBNB moves must be done on the AirBNB portal.
2. For cabins that are selling/have been sold or cabins that have been shut down, you may comp up to **$200 more of the rent** for the move.
3. Be sure to **add notes** in the reservation advising what you have done.
4. If it affects the next 2 days, **send a last-minute change email**.
5. **If applicable, block the original cabin dates** so that it can not be booked by someone else.

Greek Life Policy

---

1. Policy Statement

Vacations For YOU (VFY) does **not permit Greek Life organizations** (fraternities, sororities, or affiliated alumni/social groups, recognized or unrecognized) to rent or occupy VFY properties.

- Applies to all VFY-managed properties.
- Violations will result in **immediate cancellation and removal** with no refund.
- This policy exists to protect owners, staff, and communities from damages, noise violations, and liability associated with large group parties.

---

2. Scope

Greek Life Season Months: March, April, September, November.
During these months, additional screening and inspections are required due to spring break, homecoming, and high-risk events.

---

3. Reservation Screening Procedures

3.1 Streamline Report

- Managers/Leads pull Streamline reservations for flagged dates.
- Look for:
    - **EDU email addresses**

- If flagged → **Trigger Guest Ranger**.

3.2 Guest Ranger Requirement

- All **8-bedroom or larger properties** require Guest Ranger monitoring during March, April, November.
- Management may extend requirement to 6-bedroom+ at discretion.

3.3 Age Verification

- **Reservation holder under 25** → must provide:
  - Government-issued ID
  - Confirmation of organization affiliation/non-affiliation

3.4 Organization Verification

If group affiliation suspected:

- Collect:
  - University/School name
  - Club/Organization name
  - President's name + contact
  - 3 additional group contacts staying at the property
  - Primary property contact
- **Failure to provide within 48 hours = reservation canceled**

---

4. Deposits & Fees

- **Within 30 days of arrival**:
    - $750 impact fee (non-refundable)
    - $2,500 security deposit (refundable if no damages)
- **More than 30 days before arrival**:
    - Reservation subject to management review; cancellation possible.
- Payment required **within 72 hours of request**.

---

5. Communication Procedures

- Dispatch sends **department-wide notification email** with subject:
    - " Potential Greek Life Reservation – [Property Name + Dates]"
- Email includes: reservation ID, guest info, and flagged reason.
- All departments add extra monitoring for flagged stays.
    -

Holiday Procedures -Blocking Properties

Objective:
For Thanksgiving and Christmas, our goal is to operate under an **On-Call** procedure across all departments and markets, minimizing scheduled work while ensuring seamless guest experiences.

We will begin the below process in the Fall.

Checking Property Status

- The Operations Team in each market must review and confirm which properties remain available for Thanksgiving and Christmas Day.

Recruiting Volunteers

- Operations should begin recruiting volunteers to cover existing reservations for these holidays.
- Assess how many additional property turns can be accommodated.

Facilitating Turns

- Operations must communicate with the Call Center Manager/Leads regarding the number of turns that can be supported for each holiday.
- The Call Center Manager and Operations Teams must collaborate to ensure appropriate property blocks are applied in Streamline to prevent unmanageable turnovers.

4. Daily Monitoring & Blocking

- The Vacation Specialist Department must check the Streamline calendar daily leading up to the holiday to verify all necessary blocks are in place and to account for any last-minute bookings.
- If additional turns arise, theCall Center Manager/Leads must notify the Operations Team in each market to adjust staffing accordingly.

Holiday-Departmental On-Call Schedules

- One week prior to the holiday, all departmental managers must provide a schedule for who will cover on-call emergency-only situations.
- The HR Manager will send the final schedule to all departments.
- Volunteers should be requested first, and efforts should be made to utilize managers and team leads to give other employees the day off. Typically, there are only 2-4 emergencies per year, so this does not require employees to work the entire day.

Holiday Communication

In-House Guest Communication – Setting Expectations Upfront

3 Days Before the Holiday:

- **Call Center Agents** will start communicating office hours and closures to all in-house and arriving guests who will be affected.
- Streamline templates will be used to alert guests via email about holiday office hours and closures.

On Call Reminders:

- Agents should remind guests who call in about the updated office hours and closure details.

1 Day Prior to Holiday Closure:

- Call Center Agents will send a final reminder via text through Streamline to all guests.

Day of Holiday – Office Closed

- Phones will be turned off on the holiday. Callers will be informed that we are closed for the holiday and instructed to leave a voicemail if they have a true emergency.

On-Call Agent Actions:

- The on-call agent for the call center will listen to voicemails and determine if action is needed.
    - If action is required, the on-call agent will contact the on-call employee from the appropriate department.
    - If no action is needed, the on-call agent will leave the voicemail in the inbox to be processed on the next business day.

Breezeway Tasks

- Any **cleaning, inspection, or maintenance tasks** that need to be pushed to the next business day due to the holiday closure should be updated in **Breezeway** by Operations for each market.
- This includes **scheduled cleans** that go into a block to prevent cleaning on the holiday.

Incident Report Policy

Incidents may include, but not be limited to:

- Guest Injury or Personal Property Damage at the Property (We need to know the injured party's name, DOB, and kind/severity of the injury – the more details the better).
- Police-Involved Circumstances(Assault, homicide/suicide, Criminal Activity, Break-In, Severe Injury, etc.)

1. Guest calls or emails Customer Care to report an incident

   NOTE! If a guest(s) asks you for our or the property owner's insurance information for any alleged medical bills or property damage claims, simply tell them, "any alleged claims or bills should be sent to your insurance company for their review and processing. If THEY want to subrogate the claim or want Cabin For You's or the property owner's insurance information, they (guest's insurance carrier) will reach out for that information."

2. The Customer Care Agent escalates the call or emails to the Customer Care Team Lead or Manager

3. The Customer Care Team Lead or Manager takes guest information and starts the process of filling out the CFY Incident Report Form ←This link is a template. When you click on this, you will click "Use Template" in the top right hand corner and it will make a copy of this form for you to fill out. Please change the title from CFY Incident Report - Master to CFY Incident Report - {Cabin Name} {Reservation Number}. Please save this link to your taskbar to use.

4. The Customer Care Team Lead or Manager calls the TN Operations Administrator to alert them of the incident and request they go meet with the guests at the property
   a. The Customer Care Team Lead or Manager will enter a WO for dispatching the TN Operations Administrator and any other WO needed for maintenance inspection or action needed
      i. Use the Task Tag "Guest Incident Reported"
   b. The Customer Care Team Lead or Manager will send the TN Operations Administrator the CFY Incident Report Form related to the incident

5. TN Operations Administrator will go to the property as a representative of CFY to collect pictures, testimonies, and any other required information

6. TN Operations Administrator will complete the CFY Incident Report Form and email it to the Director of Finance, Sr. Director of Owner Relations, COO, CTO, Director of TN Operations, Director of Strategic Integration, Assigned Owner Account Manager, and Director of Call Center Operations along with granting access to the shared Google drive folder containing all pictures and documents

7. The Director of Call Center Operations will follow up with the guests after reviewing documentation with upper management.

-
- Streamline Notes:
    - In the Streamline system, only note the following: "Guest called in to report an incident."
    - Do not include any further details about the incident in the Streamline notes.

Large Group & Special Event Gatherings

Vacations For You properties are not intended for weddings or events. When guests book a reservation, agents must ask what brings them to the Smoky Mountains. If the guest mentions that it is for a wedding or event, please inform them of the following stipulations:

- **Event Details:**
    - Ask how many people will be attending the event and note this in Streamline.
- **Parking:**
    - Inform the guest of the approved number of parking spots for the property.
    - All additional guests must be shuttled to the property, as parking is not allowed on the sides of the roads or in non-designated areas of the property.
- **Event Impact Fee:**
    - There will be an **$850 impact fe**e to cover event-related costs, including wear and tear on the property and extra cleaning.
- **Property Protection:**
    - **Tier 3 property protection** will be charged to the guest.
- **Furniture:**
    - Guests are not permitted to **move furniture** inside the property.

Linen Policy

Linen Provided Per Property ALL Markets:

- **Bath Towels:** 1.5 towels per occupant (e.g., a property that sleeps 12 guests will receive 18 towels)
- **Washcloths:** 1 washcloth per occupant
- **Bath Mats:** 1 bath mat per shower or jacuzzi tub

- **Hand Towels:** 1 hand towel per bathroom
- **Pool Towels:** 1 pool towel per occupant
- **Bed Linen Sets:**
    - **King Set:** 1 King set per King bed (includes fitted sheet, flat sheet, and 2 pillowcases)
    - **Queen Set:** 1 Queen set per Queen bed or sleeper sofa (includes fitted sheet, flat sheet, and 2 pillowcases)
    - **Twin Set:** 1 Twin set per Twin bed or sleeper (includes fitted sheet, flat sheet, and 1 pillowcase)

TN Policy

Linen Facts:

Vacations For You owns all linen items provided at our properties, including bed sheets, terry items (washcloths, hand towels, bath mats), and more. We maintain an inventory of nearly 90,000 individual linen pieces and process over a million pounds of soiled linen each year. Due to the scale of our operation, tracking linen inventory is a high priority. Below are the linen items provided per property and the procedure for handling extra linen requests.

Linen Swaps:

- Emergency Linen Swaps:
    - Complimentary linen swaps will only be provided for emergency situations, which must be approved by a Team Lead or Manager.
    - The guest must provide the exact number of soiled linens that are being replaced with clean linens.
    - During peak seasons, linen items are in circulation as we swap soiled linens with clean ones after each guest departure. Therefore, we cannot provide daily linen swaps like a hotel would.
- Washer & Dryer Access:
    - All properties are advertised with the presence of a washer & dryer for guests' convenience. If a guest needs additional linens during their stay, they are encouraged to bring their own or use the property's laundry facilities.
- Properties Without a Washer & Dryer:
    - If the property does not have a washer & dryer, we will provide guests with the address of our Linen Fulfillment Center where they can swap out soiled linens for clean ones.
    - If you direct a guest to the Fulfillment Center, please call ahead to the facility and provide them with the specific linen needs for the guest's swap.

FL/AL Policy

- Linens are washed in the property on every turn.
- Owners have the option to use VFY-provided linens or supply their own linens.

NGA Policy

- Linens are washed in the property on every turn.
- Big Canoe Properties:
    - Linens and towels are owner-provided and may not be the standard white or bone-colored linens.
- North Georgia Properties:
    - CFY provides linens and adheres to the standard linen policy for dressing the property.

Lost & Found Procedures

If a guest checks out and leaves items behind in the property, a **Lost and Found** form must be sent to the guest. Here's how to handle the process:

1. **Inform the Guest:**
    - Let the guest know that it may take up to a week to confirm if their item has been found.
    - If the item is found, an agent will contact the guest directly.
    - If the item is not found, the guest will receive an email from Chargerback.
2. **Finding and Sending the Form:**
    - In Streamline, go to the reservation and click on the “Communication” tab.
    - Select “All Communications”.
    - Click the letter icon with a pen to create a new email.
    - Choose the “Guest - Lost and Found” template and send the form to the guest for them to fill out
3. **What Happens After the Form Is Submitted**
    - Once the guest completes the form, it is routed to our **Inventory Manager, Janice**.
    - Janice will then communicate with the appropriate **property zones** to help locate the item if needed.

    - In some cases, items may have already been turned in directly to the Inventory Manager, which can help expedite the process.
4. **Internal Communication Expectations**
    - All Lost & Found communication should remain within the **email thread directed to the Inventory Manager (Janice)** and the **specific property zones** involved.
    - This helps ensure visibility, accurate tracking, and avoids duplicate or conflicting follow-ups.

Maximizer Properties Booking Process

Vacations For You will be acting solely as the **booking agent** for these properties. These properties will be flagged as **OTA** in **Streamline**.

When booking one of these properties, it is important to **inform the guest** of the differences between booking a Maximizer property and our standard properties.

- Guests will be able to book online and over the phone
    - Guests will **not** have the option to purchase cancellation protection, property protection, trip insurance, packages or memberships
    - OTA's will accept military and first responders discounts (5% Only) - NO STACKING
    - We <u>must</u> advise the guest that CFY is solely the booking agent, the cabin itself is managed directly by the owner
    - We will not be sending an RA or directions

- For now, they will follow our payment plan
- Guests must contact the owner directly for cancellations, questions, maintenance, in-cabin needs, etc.

Owner-Maintained Properties

All tasks related to **Owner-Maintained properties** are **auto-assigned** to the **Owner Account Manager** and marked as **Owner Maintained** in the system. This automatic process ensures that:

- The assigned Account Manager is notified via email when a task is created.
- The account manager will also receive a phone alert, depending on their individual notification settings.

This streamlined approach ensures that the **Owner Account Manager** is promptly informed of any updates or tasks related to owner-maintained properties.

Overview:

Owner-maintained properties are those where the property owner is responsible for certain aspects of the property's upkeep, including cleaning and maintenance.

- **Property Maintenance:** The owner is responsible for routine maintenance, including any necessary repairs or adjustments during a guest's stay. This means response times for maintenance requests may vary.
- **Cleaning & Linens:** In some cases, the owner may handle cleaning and linen services.
- **Property Flag:** Owner-maintained properties will be flagged in Breezeway.
- **Guest Expectations:** Ensure that guests are made aware of any unique aspects of the property, such as differences in amenities, services, or property management compared to our standard properties.

Trash Policy

Before Creating a Work Order (WO)

1. Verify the property is not scheduled for city trash pickup.
2. Ensure the outdoor trash bins are full.
3. Requests must be made before 4 pm (after 4 pm will be rolled to the next day due to landfill hours).

FL/AL Policy

1. **Contract Cleaners:** Not responsible for trash in either market.
2. **Guest Requests:** Trash pickups by guest request are not permitted.
3. **Guests:** Responsible for taking trash to on-site dumpsters or city trash bins.

NGA Policy

1. **Contract Cleaners:** Not responsible for trash in either market.
2. **Guest Requests:** Trash pickups by guest request are not permitted.
3. **North GA:** Dumps charge per-pound fees, so we partner with local companies. Most properties are picked up **twice a week** with bear-proof bins for guest use.
4. **Big Canoe Guests:** Responsible for taking trash to **on-site compactors** near the North Gate. **$10 per bag** will be charged for any trash left after departure.

TN Policy

Trash Upon Guest Arrival

1. Check for prior trash requests in Breezeway or Reservation Notes in Streamline.
2. If no WO exists, create a WO.
3. Notify the appropriate Zone (1, 2, or 3) via email (Bcc: customercare@cabinsforyou.com) and copy/paste email into Reservation Notes.
4. QCM will dispatch the contract cleaner to collect the trash.

Mid-Stay Trash Requests

1. Check for prior requests and ensure a minimum of **3 days** for 5+ bedrooms or **4 days** for 1-4 bedrooms between requests.
2. If no prior request, create a Housekeeping Task in Breezeway and notify the Zone (Bcc: customercare@cabinsforyou.com).
3. **QCM** will dispatch a cleaner or a runner for trash pickup.

Day Before Guest Departure

1. Trash pickup requests will be denied the day before departure.

VFY After Hours "On-Call" Procedure

Objective:

To ensure timely and efficient handling of guest inquiries, urgent maintenance issues, and emergencies outside of regular business hours.

After-Hours Schedule & Availability

- **Business Hours:** Monday – Saturday: 8 AM – 8 PM EST, Sunday: 8 AM – 6 PM EST
- **After-Hours Coverage:**
  - Monday – Saturday: 8 PM – 8 AM EST
  - Sunday: 6 PM – 8 AM EST
- **Response Time Expectations:**
  - Emergency Calls: Within 30 minutes
  - Non-Emergency Calls: By the next business morning

Handling Incoming Calls

- **Automated Greeting:** All after-hours calls should be greeted with a recorded message advising guests of emergency and non-emergency protocols.
- **Call Routing:**
  - **Emergencies** → Forwarded to on-call agent immediately.
  - **Non-Urgent Inquiries** → Logged for response the next business day.

Emergency Protocols

Emergencies Include:

- No Heat/AC (if weather conditions pose a safety concern)
- No Water (full loss of water supply)
- Major Plumbing Issues (burst pipes, flooding)
- Fire, Gas Leak, or Electrical Hazard (advise guest to call 911 if necessary)
- Lockouts (if property has no keyless entry option)
- Security Issues (break-ins, unsecured property)

Procedure:

1. Gather key details:
   - Guest name, property name, contact number
   - Description of the issue
   - Immediate safety concerns
2. Contact the on-call manager via phone and text.
3. Confirm with the guest that someone is addressing the issue.
4. Document the call in the system, including actions taken.

Non-Urgent Requests

Examples:

- Wi-Fi troubleshooting
- Minor maintenance issues (loose handles, missing items)
- General property questions (check-out times, amenities)
- Lost & Found inquiries

Procedure:

1. Log the request in the system.
2. Advise the guest that a team member will follow up the next business day.
3. Forward the details to the appropriate department by email or system notes.

Escalation & Reporting

- If a guest insists on immediate assistance for a non-emergency, note the request and escalate it to the on-call manager for approval.
- The call center agent should document all interactions, including the resolution or any next steps, in the internal tracking system.
- The on-call manager will provide a summary report of all after-hours calls to the operations team each morning.

Additional Notes

- Agents should remain professional and empathetic, reassuring guests that their concerns are being addressed.
- If unsure whether an issue qualifies as an emergency, contact the on-call manager for guidance.
- If the on-call manager does not respond within 15 minutes, escalate to the next available manager.

Winter Prep Procedures

To facilitate proper preparation, a Winter Weather Spreadsheet will be distributed to all departments. This document serves as a communication tool for sharing current conditions across properties and tracking essential tasks before, during, and after the storm.

- Distribution: The Winter Weather Spreadsheet will be sent out one week before the anticipated storm.
- Responsibilities: Managers are responsible for briefing their teams on the necessary winter weather prep.

Department Responsibilities:

Call Center: Communication to Guests

1. Canned Emails/Text Messages for In-House and Incoming Guests
    a. Message for Incoming Guests:
        i. Suggest stopping in for supplies before reaching the property.
        ii. Reminder to leave faucets dripping and properties open to prevent freezing.
        iii. Offer early arrivals and discounted additional nights.
    b. Message for In-House Guests:
        i. Remind them to leave faucets dripping and cabinets open.
        ii. Encourage them to take advantage of additional services or discounts for longer stays.
    c. Check-Out Reminder Texts/Emails:
        i. Remind guests to leave faucets dripping and properties open to prevent freezing.
        ii. Set the heat to 68°F upon checkout.
2. Call center agents can refer to this guide for tips and tricks on properly handling guest issues related to weather conditions.

All Field Staff: Maintenance, Inspections, Runners, Contractors and Owner Relations

1. Salt Distribution for Driveways and Walkways
    a. Ensure a sufficient supply of salt is available and applied as needed for icy conditions. Note: Salt is only effective for ice, not snow, and is ineffective during rain.
2. Breezway Winterization Task List
    a. Kitchen and Bathroom Cabinets
        i. Action: Open kitchen and bathroom cabinet doors.
        ii. Purpose: Allow warmer air to circulate around the plumbing to prevent pipe freezing.
    b. Faucets and Drains
        i. Action: Let cold water drip from faucets served by exposed pipes.
        ii. Purpose: Running water, even at a trickle, helps prevent pipes from freezing.
        iii. Additional Step: Ensure the sink drain is open to prevent backups.

c. Thermostat Management
    i. Action: Keep the thermostat set to the same temperature throughout the day and night.
    ii. Recommended Temperature: Set the thermostat to 68°F to ensure consistent heating.
d. Windows and Doors
    i. Action: Ensure all doors and windows are properly closed.
    ii. Purpose: Retain heat inside the property to maintain temperature stability.
e. Outdoor Water Hoses
    i. Action: Unhook all water hoses from outside spigots. Ensure the spigot cover is installed.
    ii. Purpose: Prevent water lines from freezing, which could cause damage or blockages.

Owner Relations:

1. Propane Auto-Fill Communication
    a. List of properties not on auto-fill: Create and maintain a list of properties that are not on auto-fill and communicate with owners about the importance of auto-fill to avoid propane shortages during inclement weather.
2. ALL Managers Updating the Winter Weather Spreadsheet involves keeping it current by tracking the completion of tasks in the breezeway. As tasks are completed, the spreadsheet should be updated to reflect the status, ensuring accurate and timely information for managing winter weather-related activities.
3. ALL Managers Check Open Properties involves creating breezeway tasks for all unoccupied properties to ensure they are correctly prepped and secured before and after a winter storm. This includes securing windows and doors, protecting pipes, and taking necessary actions to prevent weather-related damage.

Maintenance:

1. Propane: For properties not on auto-fill, check propane levels and communicate with the property owner rep for necessary refills.
2. ALL Managers Updating the Winter Weather Spreadsheet involves keeping it current by tracking the completion of tasks in the breezeway. As tasks are completed, the spreadsheet should be updated to reflect the status, ensuring accurate and timely information for managing winter weather-related activities.
3. ALL Managers Check Open Properties involves creating breezeway tasks for all unoccupied properties to ensure they are correctly prepped and secured before and after a winter storm.

This includes securing windows and doors, protecting pipes, and taking necessary actions to prevent weather-related damage.

Dispatch:

1. Updating the Winter Weather Spreadsheet involves keeping it current by tracking the completion of tasks in the breezeway. As tasks are completed, the spreadsheet should be updated to reflect the status, ensuring accurate and timely information for managing winter weather-related activities.
2. Creating tasks for open properties involves creating breezeway tasks for all unoccupied properties to ensure they are correctly prepped and secured before and after a winter storm. This includes securing windows and doors, protecting pipes, and taking necessary actions to prevent weather-related damage.

Housekeeping and Inspections Managers:

1. Contractor List for 4WD Vehicles
    a. Compile a list of contractors with 4WD capability for emergencies or snow removal.
2. Updating the Winter Weather Spreadsheet involves keeping it current by tracking the completion of tasks in the breezeway. As tasks are completed, the spreadsheet should be updated to reflect the status, ensuring accurate and timely information for managing winter weather-related activities.
3. Check Open Properties involves creating breezeway tasks for all unoccupied properties to ensure they are correctly prepped and secured before and after a winter storm. This includes securing windows and doors, protecting pipes, and taking any necessary actions to prevent weather-related damage.

General Information:

Preventing Pipes from Freezing:

- Open kitchen and bathroom cabinet doors to allow warmer air to circulate around the plumbing.
- Let cold water drip from a faucet served by exposed pipes. Running water— even at a trickle—helps prevent freezing. Make sure the sink drain is open.
- Keep the thermostat set to the same temperature during the day and night. Set the temperature to 68°F.
- Ensure all doors and windows are closed to retain heat.

- Unhook water hoses from outside spigots to prevent water lines from freezing.

Road Conditions / Driveways / Walkways:

- Road Department
    - Gatlinburg Road Department can request city plowing for snow on city-maintained roads at (865) 430-1370.
    - Gatlinburg Facebook: https://www.facebook.com/GatlinburgPoliceDepartment
    - Pigeon Forge Road Department: (865) 453-2757
    - Sevier County Facebook: https://www.facebook.com/SevierCountySheriffsOffice
    - Sevier County Road Department (865) 453-3452
- Inspectors and maintenance staff will have salt available for driveways and walkways to help prevent icing. Note that this only works for ice, not snow, and will not be effective if it is raining.
- Some resorts have specific plowing and salting procedures:
    - Eagle Crest: Plowing and salting occur only if there are 2+ inches of snow.
    - Hidden Springs Resort: Salts roads within the resort.
    - Hibernation Station: HOA salts and scrapes roads in the resort.
    - Bear Creek Crossing: Salts roads within the resort.
    - Hidden Springs: Salts roads within the resort.
    - Eagle Crest: HOA salts roads within the resort when 2 inches of snow accumulate.
    - Echota
    - Sherwood Forest (resort roads, not the road to the resort)
    - Condo villas
    - Sky Harbor
    - Shagbark
    - Cobbly Knob: HOA salts and scrapes roads in the resort (Not driveways)

Additional Information:

- Blankets: Every property should have 1 blanket per bed. Please note that CFY does not provide loaner blankets; any extra blankets will require Owner approval.
- Space Heaters: Some properties have space heaters in lower-level areas. CFY will only provide space heaters if the property's heating system is not working.
- Property Accessibility: During extreme winter weather, some properties may not be accessible by CFY staff or contractors.
- Indoor Pools: Indoor pools will likely feel cooler since they are located in the ground. We cannot increase the pool temperature, as doing so could potentially damage the heater.
- Emergency Protocol: Depending on weather conditions and road accessibility, TN Operations may shift into Emergency ONLY mode, as staffing and resources could become limited.

Work order matrix

If a Work Order is created and the ETA is after 10 PM according to the guidelines below, the Guest is asked if they would like a confirmed (one) 1 hour service window the following morning.

(NEXT DAY WINDOW 9:30 AM TO 10:30 AM)
